

SEGU Mohamed Salem

Data Scientist & Data Analyst

Master's Graduate & State Engineer in Statistics

📍 Algiers, Algeria ✉ seguamohamedsalem@gmail.com ☎ 0774460364 🌐 mohamed-salem-segua

Formation Académique

-
- École Nationale Supérieure de Statistique et d'Économie Appliquée (ENSSEA)** Algiers, Algeria
Master's in Statistics and Data Science & State Engineer in Statistics and Planning Sept. 2024 – June 2026
- **Master's Thesis (18.5/20):** *Vehicle Detection, License Plate Recognition, and Vehicle Brand Identification System using Deep Learning: Application to the Algerian Car Fleet* – Design, implementation, testing, and successful deployment of a deep learning-based intelligent system.
 - **Startup Thesis (19.5/20):** *AI-Powered GRC (Governance, Risk & Compliance) Analysis SaaS Platform* – Modeling, implementation, testing, and deployment of a SaaS solution for automated regulatory compliance analysis assisted by artificial intelligence.

Professional Experience

-
- Djezzy** Algiers, Algeria
Data Scientist Intern Feb. – May 2026

- **Internship Project (18/20):** *Intelligent Approach for Point of Sale (POS) Segmentation.*
- Development and implementation of unsupervised learning models (clustering) to categorize and segment POS in order to optimize commercial distribution strategies.
- Exploratory data analysis of large volumes of sales and geolocation data to extract actionable trends and insights.

- ACCESS TOURISME** Algeria / Abroad
Tour Guide, Graphic Designer & Logistics Coordinator 2023 – 2025

- **Tour Guiding:** Conducting guided tours for groups of tourists, ensuring an enriching and safe experience.
- **Logistics Coordination:** Organizing and coordinating travel logistics, optimizing itineraries, and managing bookings.
- **Graphic Design:** Creating visual assets and multimedia content to promote tourist circuits.
- **Keywords:** Graphic Design (Photoshop, Canva), Logistics Management, Customer Service, Itinerary Planning, Tourism Marketing.

- Organisme de Prévention des Risques (BTP & Hydraulique)** Algiers, Algeria
Occupational Risk Prevention Intern Sept. – Oct. 2025

- **Data Analysis:** Utilizing data analysis to identify safety trends and risk factors on construction sites.
- **Reporting & Visualization:** Developing reports and visualizations to support decision-making in safety management.

Training & Certifications

-
- ENSSEA Incubator** Algiers, Algeria
Entrepreneurship & Startup Training Program 2025 – 2026

- Specialized training modules taught by the incubator: Business Plan, Digital Marketing, Entrepreneurship & Project Management, Business Legal Framework, Prototyping & Intellectual Property, Financial Analysis for Startups, and AI in Startups.

Academic Projects

-
- **Comparison of VAR and ARIMA models:** Comparative study of VAR and ARIMA time series models to forecast inflation in Algeria. Performance analysis and selection of the optimal model.
 - **Machine Learning Modeling:** Developing supervised and unsupervised learning projects, including classification, regression, and clustering techniques for complex data analysis.
 - **Neural Networks – Salary Prediction:** Designing and implementing a neural network model to predict salaries based on socio-economic and professional variables.

Technical Skills

Languages, ML & Computer Vision: Python, R, SQL, PyTorch, TensorFlow, YOLO, ResNet18, FastOCR, Scikit-learn, Pandas, NumPy.

Data Analysis & Business Intelligence (BI): Excel, Excel Stat, Power BI.

Design & Multimedia: PowerPoint, Canva, Photoshop, Video editing.

Languages

Arabic: Native

French: Fluent (C2)

English: Fluent (C1)
